

PRESS RELEASE

Dietlikon, October 1st, 2008

T&N and Unitel pooling their powers

T&N Telekom & Netzwerk AG in Dietlikon takes over Olten-based company Unitel AG.

Unitel AG has been active in the communication technology sector since 1969. A long tradition which, however, is also intrinsically tied to a constant striving for progress and development. The takeover by T&N AG, who are active throughout Switzerland, is yet another step in the right direction for Unitel AG. The lack of a family successor, but also strengthening and expanding their business activities are good reasons for this decision. Unitel clients will benefit from pooled powers, expanded business activities and area-wide support services.

On October 1st, 2008, Unitel AG will turn into a wholly owned subsidiary of T&N Telekom & Netzwerk AG. The Unitel head office will remain at Ziegelfeldstrasse 70 in Olten, and business activities will be continued and expanded under the name of T&N AG. Furthermore, all staff will still be working for Unitel AG.

Unitel AG was founded by Fred Schenker in 1969. Over the years, the company has earned itself an excellent reputation in communication technology. Telephone systems with a total of more than 10'000 extensions and entire IT-infrastructures used by numerous business clients are impressive examples of the service quality offered by Unitel AG. Today the company employs around ten staff. Company founder Fred Schenker will continue to work for the company.

The company T&N AG with its main office in Dietlikon and branch offices in Frauenfeld, Zürich, Olten and Crissier has around 100 staff, and generated a sales revenue of CHF 26 million in 2007. Since 1996 the company has been providing unique services in the field of IT, network, traditional and IP telephony (VoIP) as well as unified communication.
